

## International Summer School in Cologne – Places still available!

We are happy to announce the upcoming of our third international summer school at Cologne University of Applied Sciences! From July 14 to August 29, 2008, CUAS will offer many different classes between one and three weeks duration in specialized subject areas taught in English by experienced faculty members of our school for university students who like to travel, study, and receive academic credit at the same time. CUAS welcomes students from around the world for an intensive and exciting summer school study program!

### Courses:

- Multilingual Intercultural Media Competence
- Public Transport in Germany
- Mathematics for Communication Systems
- DSH Intensive Preparation Course
- Urban Change - Challenges and Strategies for Tropical Cities
- NVH Automotive Systems Engineering
- Integrated Water Resources Management in Germany and the EU
- GIS – Geographical Information Systems

### Added value:

- ECTS credits upon successful completion of a course
- Small groups to ensure effective learning situations
- Classes taught in English by top faculty members
- Coursework-related company visits and cultural excursions
- Participants from all-around the world who guarantee a unique study experience
